idoc Optical is proof that with hard work, dedication and constant determination, you can achieve your dream. Our practice is based on ethics, morality and genuine care for our patients. It hasn't been easy to own a small business in downtown DC, but we continued on our path without being distracted and look to the future with much hope. We are proud to say that our practice has grown solely based on referrals from our patients.

idoc offers a full scope Optometric practice, from general eye exams to diagnosis and treatment of ocular diseases. Our appointment schedule is set in such a way that allows enough time to provide our patients with a very thorough eye exam. We specialize in contact lenses with emphasis on difficult to fit patients needing multifocal, toric and specialty contact lenses treating irregular corneas such as Keratoconus. idoc Optical is unique in the way that it offers couture eyewear in a wide range of prices and accepts many different insurance plans. Many of our frames are hand assembled using quality materials. Our opticians are well trained and have many years of experience in the industry.

“In a world that is lacking personal attention and customer service we are truly striving to give DC just that!”
